I only go to the radiologists of Hazleton Imaging.

You have a choice. Tell your doctor to send you to Hazleton Imaging.”

- Todd Bodine

2006 NASCAR Craftsman Truck Series Champion

With Hazleton Imaging’s professional and compassionate staff, I never have to give it a second thought. Hazleton Imaging always provides us with complete and detailed reports with a fast turn around, which allows our doctors to make accurate treatment plans for patients. We never have to say the word ‘STAT,’ because Hazleton Imaging believes every patient deserves STAT status. I personally use Hazleton Imaging to help in my care for chronic sports injuries because of their commitment to using state-of-the-art equipment. Any time I’m asked who I go to for X-rays, MRI’s or CT’s, I say Hazleton Imaging.”

- Mark Boyle

Practice Administrator

Mountain View Orthopaedics and Associates

{slimbox align=|right| padding=|5| title=|Carol Kay| album=|test|}images/stories/testimonials/kay.jpg{/slimbox}“I used to wait weeks for my test results, and now I have them the same day or sometimes instantly. I have never received such good service. I recommend Hazleton Imaging Center to all my friends and relatives and would not go anywhere else.”

- Carol Kay

Executive Director

Greater Hazleton Senior Citizens

“Now that I tried Hazleton Imaging, I won’t go anywhere else. I couldn’t believe that I could watch my favorite TV shows during my procedure. Usually, I’m very nervous and stressed about getting an MRI.

Hazleton Imaging’s Cinema Vision system really put me at ease and relieved my anxiety. I hardly realized that I was having an MRI.”

- Faith Mrochko

Teacher, Hazleton Area School District
