

Hazleton Imaging launches new web site

{slimbox align=|right| padding=|5| title=|Hazleton Imaging offers state-of-the-art diagnostic imaging services right in downtown Hazleton.| album=|test|}images/stories/aboutus/exterior.jpg{/slimbox}(Sept. 1, 2007, Hazleton, PA) - Hazleton Imaging Center has launched its new web site, www.hazletonimaging.com, which features a variety of information about Hazleton Imaging, including:

- their board-certified radiologists
- highly-trained staff
- state-of-the-art diagnostic imaging equipment
- and convenient downtown Hazleton location.

Hazleton Imaging offers area residents all the expertise of big city medical facilities, with all the benefits of small-town local care. Whether it's an MRI, CT scan, mammogram, ultrasound or some other test, patients should tell their doctor they want to go to Hazleton Imaging Center.

Hazleton Imaging truly does provide "the experience you want and the compassion you deserve" with a home-like setting and state-of-the-art diagnostic equipment. But the real difference lies with their highly trained staff of technologists and team of board-certified radiologists who have set the bar for excellence throughout Northeastern Pennsylvania.

One of Hazleton Imaging's biggest advantages lies in the speed and accuracy of their test results.
